About Us

More than just watercraft, our wooden boats, kayaks, and canoes represent connections to a legacy of craftsmanship and old world techniques. Wooden Boat USA is invested in the type of construction that recalls generations of boat making. Over thirty years in business, our commitment has always been and will continue to be, to excellence, to tradition, and to creating products exceptional for their performance and incredible beauty alike. Inspired by history, the names of our watercraft are derived from the northern waterways that natives and settlers have used for centuries. Merging centuries-old customs with technological innovation, we bring you boats that excel in every category. Working with top-grade, hand-selected wood, our craftsmen hand join each individual strip. Hundreds of hours go into the construction of our boats, as perfection is the only option. Once built, the piece is encapsulated in a layer of fiberglass and epoxy resin, adding extra durability and strength. At last, the watercraft is ready for its nautical debut.

Custom Work

Never veering from our standards and handmade construction techniques, we also do bespoke pieces. We have worked with customers on sailboats and even powerboats of different designs and configurations. Merging time-honored traditions of boat building with new possibilities is what we do best!

** Often we have many of the boats in stock, if not there will be a period of time before delivery*

CLINKER BUILT WHITEHALL ROW BOAT 12' K203

L: 147.5 W: 41 H: 27.5 Inches

One of the most refined rowboats of the 19th century, Whitehall rowboats were used to ferry goods, services, and sailors on and off the boats coming into New York Harbor.

Our Whitehall dinghy is specially built using a traditional clinker method in which the edges of hull planks overlap each other. This technique was developed in northern Europe and successfully used by the Anglo-Saxons, Frisians, and Scandinavians. Made over 600-700 hours, it is an unquestionably fine heritage piece.

Features

- Whitepine, western red cedar, and hardwood construction

FAQ'S

***What are your canoes and kayaks made of?***

Our canoes and kayaks are made of the highest quality western red cedar and some hardwoods. The larger boats are made of western red cedar, pine, and hardwoods such as oak, mahogany, teak, and some locally available woods. Our wooden watercraft are then coated both inside and out in an incredibly durable American made fiberglass and epoxy resin.

You mentioned that you use fiberglass in your boats, so what is the difference between your boats and fiberglass boats?

We only use 1 or 2 clear thin layers of fiberglass coating on top of the wood for reinforcement and added integrity. You never see any fiberglass, only beautiful, hand-joined cedar and hardwoods.

What is a typical cedar strip canoe or kayak weight?

A 15' kayak weighs approximately 45lbs, making it very easy for one person to carry. A 16' canoe weighs about 48lbs.

What type of boats do you build?

Our wooden strip canoes and kayaks are hugely popular for touring and recreational purposes. We also build wooden dinghies, wooden sail boats, classic wooden runabouts, and speedboats. Additionally, we can custom-build any design with which you supply us.

What methods do you use to build the boats?

Focused on integrating traditional technique with modern design, all boats are built by hand, typically taking hundreds of man hours to create.

How do I order?

Please contact our dealers or call (877) 88 Boats for more information.

How long does an order take?

Boats that we have in stock can be shipped to you within a week). New or custom products generally take 2-3 months as everything we sell is 100% hand crafted.

How do you ship it?

We can ship via trucking company very safely. We also insure all freight so in the very rare case that a shipment is damaged during transit, we will take care of the details and immediately replace the item for you. We also have distributors all over the world, so please contact us to find out more information.

How do I become a distributor of your products?

We welcome qualified dealers and distributors all over the world. Please contact us today at (877) 88 Boats or email us at info@woodenboatusa.com for more information.

What kind of warranty can I expect?

For all products we offer a 6 month limited warranty on materials and craftsmanship.

GUIDELINES FOR USE

CARE:

With a little bit of care and maintenance, your beautiful canoe can last for generations. While our products are certainly durable and solid, they still require the right type of care and handling to ensure that they perform optimally.

- It is recommended that you rinse your canoe off with fresh clean water after every use.
- Upon returning from the trip, allow your canoe to air-dry in the shade.

STORAGE:

Besides taking care of your canoe, storage also plays an essential role in maintaining your canoe's appearance and beauty.

- Always store your wooden canoe in shade.
- Turn it upside down on the support thereby keeping it off the ground.
- Hanging your boat from the rafters in your garage or shop would be ideal storage.

REPAIR:

Minor scratches can be repaired by marine spar varnish or some brand of automobile wax. Smooth the damaged area with sand paper, wipe clean, then apply marine spar varnish.

SAFETY:

Wooden Boat USA strongly recommends that a Personal Flotation Device (PFD) is worn whenever paddling.
